Mr. W. H. Britton, President  
Westinghouse Materials Company  
of Ohio  
P. O. Box 398704  
Cincinnati, OH 45239-8704

Dear Mr. Britton:

**TELEPHONE CABLE ROUTE FROM THE ADMINISTRATION BUILDING TO THE NEW ANALYTICAL FACILITY**

The enclosed Removal Site Evaluation for Installation of the Telephone Poles (Analytical Facility Upgrade Project) has been reviewed by my office. Based on this review, DOE has determined that this work does not constitute a removal action. Therefore, the contaminated soils associated with this project can be removed and dispositioned following the specific control measures noted within the RSE document and per the radiological guidelines specified in the FMPC Site Policy and Procedures, FMPC-720. The Administrative Record for the RI/FS should include this document. A final report shall be issued, which addresses the volume of soil, number of boxes, and the results of verification sampling.

If your staff has any questions, please ask them to contact Andy Avel at extension 6161.

Sincerely,

  
Gerald W. Westerbeck  
FMPC Site Manager
